CAREER SUMMARY

Mobile Engineer specializing in React Native and Expo, with a frontend engineering foundation and experience shipping production iOS and Android applications.

WORK EXPERIENCE

Koyo - Mobile Software Engineer (Fulltime)

[App Store](#) | [Play Store](#)

Remote

Jan 2026 - Present

- Contributed to the development and launch of v1 of a native-language learning app that reached **2,000 downloads in its first month**.
- Rebuilt core v2 screens from Figma and migrated API data fetching from useEffect to **React Query**, reducing user-reported errors by over **97%**.
- Redesigned the architecture for lesson exercise types, improving maintainability and making new exercise experiences easier to implement.
- Maintaining the production app, shipping bug fixes and features based on user feedback, while managing and mentoring a mobile developer intern.

Eatly - Mobile Software Engineer (Contract)

[App Store](#) | [Play Store](#)

Remote

April 2026 - August 2026

- Rebuilt a food delivery application end-to-end with **React Native and Expo**, converting **50+ screens** from Figma into production-ready interfaces.
- Integrated **Paystack payments, dual-token authentication, wallet, cart/checkout, push notifications, webhooks, and real-time order tracking**.
- Built a short-form video feature for restaurants to showcase meals and improve meal discovery and ordering.
- Deployed and maintained the application on **Google Play and the App Store**, troubleshooting store feedback and shipping OTA updates post-launch.

Remita - Frontend Developer (Fulltime)

Remote

March 2025 - October 2025

- Contributed to fintech products and the redesign of Remita's website, building reusable React components, integrating backend APIs, and collaborating with senior engineers, designers, and product teams to ship and test new features.

OpenDesk - Frontend Developer (Fulltime)

Remote

Feb 2024 - October 2024

- Built a pension management web application for Shell Nigeria, integrating Figma designs with backend APIs and engineering a data-intensive monitoring pipeline with Redux.

EDUCATION

Elizade University

BENG Computer Engineering

Ondo State, Nigeria

July 2026

SKILLS

React Native • Expo • TypeScript • JavaScript • React Query • Zustand • Redux • REST APIs • Webhooks • Paystack • OneSignal • App Store Connect • Google Play Console • EAS • Git • GitHub • Next.js • Tailwind CSS
